

Studio ARHING d.o.o. was founded in 1991 in Zagreb as one of the first private design companies in Croatia. The distinction of the office is the integral design team consisting of civil engineers and architects, thus ensuring a complete engineering approach in the work. Based on long-term successful contracting and realization of businesses within the scope of design, consulting and engineering, Studio Arhing became one of the leading companies in its branch. With great competence and responsibility we solve complex issues of engineering design of all types of constructions, all kinds of architectural design, including complete construction supervision. We are able to deliver projects outside state borders in line with applicable norms (EC, SNIP, DIN, SIA...). A particular area of interest is the work on research, documentation and rehabilitation of heritage structures in which we have many years of experience. We are also licensed for project supervision and control in the field of mechanical resistance and stability of concrete, masonry and timber constructions, which makes us one of the few companies that can provide an investor with such a wide scope of construction related services

Services	Software	Company
<ul style="list-style-type: none"> - Structural design in steelwork, concrete, timber and masonry - Special structures - Building performance - Assessment & renovation - Refurbishment, re-modelling and renovation of historic and listed structures - Seismic assessment & rehabilitation - Foundation design, including deep basement for urban sites - Architectural design - Interior design - Master- planning - 3D imaging/ visualization - Consulting activities - Construction supervision - Cost estimates - Project management 	<ul style="list-style-type: none"> - Allplan BIM (Nemetschek) - BricsCAD - Bentley Prosteel 3D - Tower 8 (Radimpex) - ArmCAD (Radimpex) - Metal Studio (Radimpex) - Etabs (CSI Berkeley) - Safe (CSI Berkeley) - Beton, Wood, Steel Express (RUNET) - Costruc+ (Kretz Software) - Frilo (Friedrich & Lochner) - Microsoft Office 	<p>Studio ARHING d.o.o.
